Facility Characteristics

Data Dictionary

| Statute | Source ID | Universe | Status | Areas | Permit Expiration Date | Latitude/ Longitude | Indian Country? | SIC Codes | NAICS Codes |
|---------|--------------|-----------------------------------|-----------------|-------|---------------------------|-----------------------------------|--------------------|--------------|----------------|
| | 110000617440 | | | | | LRT: 39.135232 , -84.052582 | No | | |

If the CWA permit is past its expiration date, this normally means that the permitting authority has not yet issued a new permit. In these situations, the expired permit is normally administratively extended and kept in effect until the new permit is issued.

For the RCRA program, activities that contribute to an overall facility status of Active are displayed in parentheses using the acronym HPACS, where H indicates handler activities, P - permitting, A - corrective action, C - converter, and S - state-specific. More information is available in the Data Dictionary.

This section provides demographic information regarding the community surrounding the facility. ECHO compliance data alone are not sufficient to determine whether violations at a particular facility had negative impacts on public health or the environment. Statistics are based upon the 2000 US Census data, and are accurate to the extent that the facility latitude and longitude listed below are correct. The latitude and longitude are obtained from the EPA [Locational Reference Table \(LRT\)](#) when available.

Notice About Duration of Violations -- The duration of violations shown on this report is an estimate of the

actual duration of the violations that might be alleged or later determined in a legal proceeding. For example, the start date of the violation as shown in the ECHO database is normally when the government first became aware of the violation, not the first date that the violation occurred, and the facility may have corrected the violation before the end date shown. In some situations, violations may have been corrected by the facility, but EPA or the State has not verified the correction of these violations. In other situations, EPA does not remove the violation flag until an enforcement action has been resolved.

This report was generated by the Integrated Data for Enforcement Analysis (IDEA) system, which updates its information from program databases monthly. The data were last updated: RCRAInfo: 03/19/2012. NCDB: 10/27/2006. FRS: 03/15/2012. ICIS: 03/16/2012.

Some regulated facilities have expressed an interest in explaining data shown in the Detailed Facility Reports in ECHO. Please check company web sites for such explanations.
